SMART TOOLS.

DocuSign® for Content Manager
by WyldLynx

DocuSign for Content Manager brings the power of DocuSign to the users of Content Manager, allowing easy and effective eSignature sign-offs quickly and directly from within the Content Manager interface.
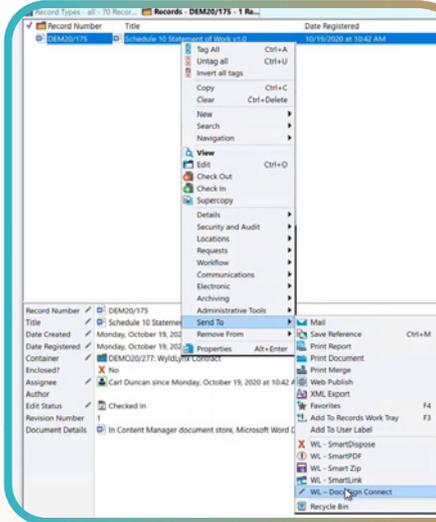

Managing your entire document workflow just got a whole lot easier!
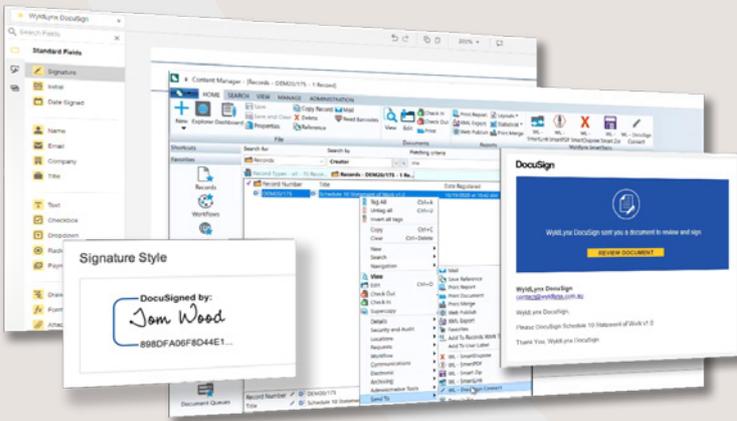

WyldLynx
Linking Business & Technology

Features and Functionality

✓ Streamline your contract approval process

✓ Send documents to clients for approval directly from within Content Manager

✓ Simple and binding approval process

✓ Multiple documents in one single Envelope, reducing transaction cost and better business process

✓ Easy for clients to sign

" Sending multiple contracts straight from Content Manager, instead of the long export and import process I was doing, has saved me hours each day! "

User Feedback

DocuSign provides the ability to sign agreements electronically on practically any device, from almost anywhere at any time.

DocuSign for Content Manager by WyldLynx brings the power of the Docusign platform directly to Content Manager, allowing multiple documents to be sent out, signed, and brought back into Content Manager seamlessly.

It's the final step in the paperless process you have been waiting for!
